

Library Services

Consolidated Supply of European Publications

Casalini Libri offers speedy and precise supply of European materials in all formats and subject areas: print and electronic books, journals, conference proceedings, music scores, DVDs, CDs, maps, and more. Rush ordering and out-of-print searching complete our suite of supply services.

- Firm orders for titles in all formats and all subject areas
- Standing orders for monographic series, serials and annuals
- Subscriptions for online and print journals

Collection Development Services

Assisting libraries in the development of their collections has always been central to our objectives. Casalini's in-house bibliographers compile and create new title records that are pertinent to academic libraries and cover imprints of Italy, France, Spain, Portugal, Greece and beyond. The New Title Information is available to librarians free of charge according to personal profiles via our online databases or weekly and monthly e-mail updates.

Our book Approval Plan services give libraries the assurance that professional bibliographers will make selections with book in hand to meet their precise subject, non-subject and budget requirements.

Acquisitions, Cataloguing & Technical Services

Casalini offers a broad spectrum of services that libraries may implement to facilitate their acquisitions and accessions workflows:

- Online interface for title searching, selection, ordering, viewing order status and invoices
- MARC records with embedded order and invoice data
- Bibliographic Standard Records (original LC Core Level Cataloguing following RDA)
- Physical processing (barcodes, security strips, library stamps, shelf labels, binding and customized shelf-ready supply)
- Table of Contents links and ToC in pdf format
- EDIFACT capabilities for orders and invoices
