

New Title Alerts for e-content

As Casalini Libri's Digital Division enters its fifteenth year of activity, we are proud to announce New Title Information alerts for electronic publications.

Our existing NTI service now also includes **bibliographic records for electronic titles** hosted through the [Torrossa](#) full text platform.

Electronic titles will be proposed according to each library or selector's **individual subject profile** and featured alongside the print publications in our notifications. Bibliographic records will provide the list price for institutional purchase of e-books.

A special feature has been added to our website to allow **searches to be filtered for print or electronic publications**. The title records show clearly the book format and provide a link to the alternative version, where available. Publications included in the institution's **collection of e-content in Torrossa** are identifiable by a special icon.

The addition of records for digital editions to the normal workflow will **facilitate the selection and acquisition of single e-books** for libraries. Institutions that order directly through our website may now use the **same procedure** to purchase print and electronic editions.

Texts may be accessed through the [Torrossa](#) platform (www.torrossa.it), with a standard set of permissions allowing copy/paste and print. Downloads are permitted and will expire after fourteen days. Documents are accessible in PDF format.

COLLECTIONS OF ELECTRONIC CONTENT

This service complements Casalini Libri's **range of e-book and e-journal packages**. For a complete overview of our subject-based, single-publisher and interdisciplinary collections of Italian and Spanish scholarly publications, please refer to www.casalini.it/torrossa.

CONTACTS

For additional information or assistance, please do not hesitate to contact us at info@casalini.it.

Since its foundation in the late 1950's, Casalini Libri S.p.A. has been dedicated to the supply of bibliographical services, books and journals to national, academic and public libraries and institutions worldwide. Since its outset Casalini Libri has worked closely with libraries and publishers to develop customized supply and library services that suit the individual needs of our customers around the world.

The Casalini Libri Digital Division, established in January 2000 following an international pilot project, offers innovative electronic publishing services to the highest industry standards, collaborating with Italian and international publishers to create and distribute digital publications.

The company, headquartered in Fiesole (Florence, Italy), adheres to the ISO 9000 Quality Management System.
